Your Medical Records Online

\$\$\$[OWNER]] has recently added a system to the practice enabling you to view your important medical information online. To make that possible, this office has chosen **The Digital Chart Room by simplifyMD** to handle the filing and storage of your medical information. Through The Digital Chart Room, you have the ability to subscribe to your Personal Health Record, or PHR.

Understanding the simplifyMD PHR

Who needs access to their PHR?

Everyone! Through your PHR, you have access to the pieces of your medical record made available to you by your physician's office. Your PHR gives you access to your medical record in the event of an emergency.

For your children, parents and yourself, enjoy peace-of-mind knowing that important medical information is available when it is needed most. For less urgent occasions, such as seeing a specialist or just having access to routine school or immunization forms, you'll appreciate the convenience of having that at your fingertips, just a few clicks away.

Are my health records secure?

Your PHR is stored in a secure server at your physicians' office just like your paper records. It is accessible only over a government-approved encrypted communications link and requires a user name and password.

Who controls what I see in my PHR?

You and your physician are in control of your digital chart and your physician gives you access to those areas of the chart that would be important to you and to those you give access to your PHR.

Why would I give anyone access to my PHR?

Normally, you wouldn't give anyone your login id or password. However, if it is medically necessary you can give an emergency or another access to your digital chart. With that access, the physician can view your medical history and existing conditions before treating you, without having to contact your doctor first.

How much does access to my PHR cost?

The **monthly** subscription price for your PHR is \$ AMOUNT. Signup and registration today!

Put your around-the-clock care in the hands of the physician you trust.

Sign up today for your simplifyMD PHR at the front desk.
